According to an ancient legend, when God distributed benefits, Dalmatians got grapevine... because, at a place where sun burns the rocks, where soil is thirsty, where rocky ground prevails, hardly any crop may survive. That is exactly Dalma-tia and that is where grapevine found its homeland.

For as early as the 4th century BC, the Ancient Greeks brought the grape vine to this sunny island and planted it in the fertile plain of the ancient town Pharos. Throughout the centuries of rich and tur-bulent history, people on Hvar cultivated their vineyards with great skill and care, blessed with the lushness of Medi-terranean. Grapes and wine gave them safety, food and medicine. They grew some of the finest varieties in this area, but the challenge still remains: how to turn this richness and harmony into great wines.

Tour starts at 6pm. After 30 min drive you arrive to Jelsa, small town on the north coast of the island. It used to be one of the most significant maritime, shipbuilding and trade centres of the Adriatic, starting point for ocean-going sailing vessels carrying best wines of Hvar, olive oil and salted fish to far destinations all over the world.

A short drive along a dirt road leads to Malo Grablje, a small village abandoned decades ago. Upon arrival there will be a short walk through that picturesque village founded in the 16th century. After Malo Grablje you proceed to Velo Grablje and the next stop is Vidikovac with such a perfect view of the deepest bay on the island, there the guide will tell you information about the area, about the oldest town in Croatia founded by ancient Greeks and more...

After the short stop you drive to the highest peak of the island, Saint Nicholas (626 m). From the highest peak of the island there is a 360 degree unobstructed view of the island and across to islands of Brač, Korčula and Vis. Below the high point of St. Nicholas on a sloping sunny hillside lies Sveta Nedija, a village surrounded with steep vineyards which are very difficult to tend. It is famous far and wide for the high quality red wine it produces from the plavac grape.

Driving down the hill you will be surprised by the variety of the sun-soaked island paradise of Hvar, accentuated with vineyard-covered hills, olive groves and undulating fields of rosemary and lavender. You will have lunch at a tavern in the abandoned medieval village of Humac. The tavern with its interior in local style, organic vegetables production and food preparation sends you back to lives of people from Hvar from centuries ago. Preparation of food in the tavern is traditional. The most interesting is under the bell shaped lid ("peka") which is covered with live coal.

For lunch you can choose: octopus, lamb, veal or chicken with potatoes as a side dish.

After lunch you continue along the north coast to Vrboska where you stop at Soline beach for a relax and a swim.

As your Hvar Off-Road Tour comes to an end, approximately at 6 pm, you head back to Hvar town taking the new road.
